INTRODUCTION

WE present herewith the third volume of our City Directory of Colorado Springs, Colorado City and Manitou.

Colorado Springs continues to grow more rapidly than ever. Our last directory issued May 1st, 1901, contained 11,818 references, from which we deducted 1,153 names of firms, churches, blocks, etc., leaving 11,340 names.

This year we give 15,344 references, from which is deducted 1,196 names of firms, churches, blocks, etc., leaving 14,148 names of individuals, which at the conservative ratio of two and one-half inhabitants for each name in the directory, shows the present population of Colorado Springs and suburbs to be 35,470; an increase of 6,208 during the year. No directory published in this country uses a smaller ratio than we do in computing the population, and we feel positive that 35,470 is a conservative estimate of the population of this city and its suburbs.

To the business and professional men who, by their patronage, have aided us in producing this volume and to all who have furnished us the desired information concerning themselves and their business, we return our sincere thanks and promise another directory as good as the present, one year from date. Respectfully,

*The Publishers.*
